WHAT YOUR SCORE MEANS

Your credit rating ranks higher than 30% of U.S. consumers.

Currently, your CreditXpert Credit Score (tm) will make it difficult for you to get the best offers from lenders, especially for credit cards. Be prepared to pay higher fees and interest rates and/or to make a deposit or down payment. Also, you may not be able to get high credit limits and loan amounts. However, if you demonstrate that you are reliable by paying your bills on time, your credit score can improve significantly.

Here are the top factors that make your score lower:

Credit usage

On average, you are using 104% of your credit limit on your credit card(s). This only includes your open accounts for which the credit limit/loan amount is available.

Here are the top factors that make your score higher:

Payment history

Last reported month, you paid all of your accounts on time.

This only includes accounts updated in the past 3 months.
